"I dream of throwing pottery, then I throw my dream."

My inner spirit is revealed while creating pottery on the mesmerizing spinning wheel. With *Red Hot Chili Peppers* playing loudly in the background, I am transported to a calm, yet energized place whenever I am creating pottery on the wheel.

My focus has been on other things in the past two years (guess what!! ha-ha). But now that my baby- the gallery-is going strong, I can let go a bit, put gallery business on the back burner, turn on my tunes and get muddy.
